PROFILE

Electronics and Communication Engineering student with experience in web development, IoT systems, database-driven applications, and technical leadership. Completed 3 website projects with 2 ongoing developments. Skilled in Python, JavaScript, React, MySQL, ESP32, responsive web development, and innovation-focused project execution.

SKILLS

Python • C • C++ • JavaScript • HTML5 • CSS3 • React • MySQL • Git • GitHub • REST API • ESP32 • IoT • Embedded Systems • MATLAB • Problem Solving • Leadership • Communication • Organizational Skills

EDUCATION

B.Tech Electronics & Communication Engineering

MBC CET, APJ Abdul Kalam Technological University (Expected Graduation: May 2026)

EXPERIENCE

IEDC Student Lead (03/2025–Present)

Led innovation and entrepreneurship activities, coordinated technical events, and supported startup-focused initiatives for students.

µLearn Campus Lead (03/2025–Present)

Facilitated learning opportunities, community engagement activities, and peer-learning programs.

µLearn District Lead Intern (01/2026–Present)

Supported initiatives reaching 200+ students and coordinated mentorship programs and technical sessions.

µLearn Zonal Lead Intern (01/2026–Present)

Assisted regional community growth, networking activities, and student engagement programs.

Freelance Web Developer (01/2024–Present)

Completed 3 website projects and currently developing 2 additional websites with backend integration and database connectivity.

PROJECTS

Urban Flood & Drainage Block Detector

Developed an IoT-based monitoring system using ESP32 and Python. Designed for real-time flood detection and drainage blockage identification.

Arackamannil Printers Management System

Developed a responsive business website with backend integration, customer inquiry handling, and database support.

Bethany High School Website

Created an institutional website with backend functionality and database connectivity for information management.

Arackamannil Farms Website

Built a responsive website to improve online presence and accessibility across desktop and mobile platforms.

NASA Space Apps Challenge Project

Collaborated in a 6-member team to develop innovative solutions addressing Earth and space-related challenges.

LEADERSHIP & ACHIEVEMENTS

- NASA Space Apps Challenge Global Nominee (2025)
- Student Lead, KSUM IEDC (2025–Present)
- Branding & Marketing Lead, KSUM IEDC (2024–25)

- Supported 5 innovation and technical events
- Reached 200+ students through μ Learn initiatives

CERTIFICATIONS & INTERESTS

Microsoft Fundamentals of UI/UX Design (Coursera) • NPTEL Elite – Joy of Computing Using Python (70%)

Interests: Web Development, IoT Systems, Open Source Technology, Innovation & Entrepreneurship
